

Peel n Pour™ Liners *For Chemical Products*

Safe and convenient dispensing for chemical and automotive products

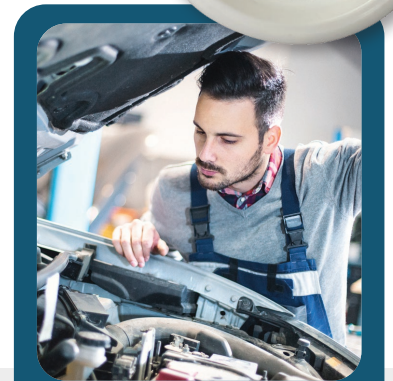

When handling chemical and automotive products, precise dosing is critical to ensuring consumer safety. With TekniPlex's Peel n Pour™ dispensing liners, consumers can easily control the flow and prevent potentially hazardous spills.

Ideal for low viscosity liquids like fuel additives, as well as dry products such as ice melt, Peel n Pour liners provide strong induction seals and customizable pull tabs to ensure safe and convenient dispensing.

Features and benefits:

- Fully customizable liners and pull tabs
- Strong induction seal prevents leaks
- Sealing capabilities for all bottle types, including HDPE, PP, PET, and glass containers
- Printed liners are available
- Supply chain consolidation
- Economical alternative to traditional plastic press-in orifice reducers

By eliminating the need for conventional plastic orifice reducers, Peel n Pour™ liners offer weight and cost savings as well as supply chain consolidation.
